

**Utilities Kingston Project UK-14-17  
Portsmouth Sewershed  
Inflow and Infiltration Program – Phase 2A**

**WE'RE FINISHED**

The cured in place pipe installation that was started today is now complete. Please feel free to use your drains as you normally would.

If you notice an odour – please review the attached Odour Alert Notice for information.

If it was necessary for us to install a Cleanout at the Property Line at your house (you may notice a small PVC pipe sticking above the ground) – we will be back to cut that down and restore the area soon. If the restored surface is grass please water as needed and call D.M. Robichaud in the case that the grass doesn't take and we can come back and insure proper restoration.

We would also like to take this opportunity to express our appreciation for your restraint and patience.

Once again thank you from the staff at D.M. Robichaud Associates.

**In the event of an EMERGENCY or SEWAGE SPILL that you feel may be related to this work, your first point of contact should be:**

**CIPP Corrdinator, Jordan Ellis at 1-877-RELINED**

**Alternatively, contact Utilities Kingston's Inspector, Trevor Howden at (613)888-4566 or Utilities Kingston Customer Service directly at (613)546-1181**

For more information ,please go to <http://utilitieskingston.com> and view the "Work in your Area". This notice can be made available in a different format upon request.
