

Risks are high for water services freezing

Our records indicate the
water service line at this address
has a history of freezing.

To protect your property:

Leave a pencil-thin stream of water flowing
from a cold water tap (see reverse). Ensure the
drain is clear. We suggest you leave it running
until further notice.

Get further information and preventative tips:
[UtilitiesKingston.com/Water/Frozen Services](http://UtilitiesKingston.com/Water/Frozen%20Services).

If you have questions, call customer service
613-546-0000, Monday to Friday from
8 AM to 5 PM.

If your water service freezes, or you
experience any other utility emergency, call
our 24-hour emergency line at **613-546-1181**.
